It was reported the card reader was not working. Sent service vehicle to the property.
Arrived at site and had no access to the pool. Was able to use a wire to engage the crash bar to gain entrance.

- Took the cover off of the electric strike and all of the components came out as they had been broken off
- Went by Property managers office to pick up prox card to test reader
- Picked up replacement electric strike from supplier
- Returned to property
- Installed new electric strike
- When using the prox card the reader would chirp, but would not turn green and grant access
- Lock on access controller cabinet has been changed from our keyed lock we had used before, and unable to access as we do not have new key.
- Chased down all wiring and couldn't find any issues
- Contacted supplier to look up order for prox cards placed in 6/21. Was able to get facility code (12).
- Spoke with Property manager and she reprogrammed the system with that facility code and the gate worked properly
- Made adjustments on gate so it would close at full, half and 3" distances when opened.
- System is now operating properly
